## DECK BRUSHES

Deck brushes clean a smaller area

Use these brushes to scrub and sweep uneven wood and grouted surfaces such as decks and patios.

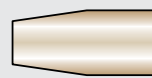

### WOOD BLOCK DECK SCRUB

These all-purpose wooden deck brushes are filled with a blend of natural tampico and palmyra fibres (called **union fibre**) in an 11-inch wooden block drilled to accept a tapered handle.

The 336 brush is edged with a handy rubber squeegee so that it can be flipped over and used to move standing water.

The 322 deck brush has synthetic fibres with good chemical and moisture resistance. This brush has short, very stiff fibres for aggressive scrubbing.

order tapered handle

336

334

322

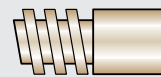

item	size [in.]	action	material	pack
336	11	medium	union, with rubber squeegee	10
334			union	
322		coarse	synthetic	

### SLIM LINE SCRUB BRUSHES

These deck scrubs feature a low-profile plastic block with grooved edges to provide an easier grip for handheld use. They will also accept any Acme-threaded handle including our metal, flow-through handles.

Natural tampico fibres absorb more water and offer a gentle scrubbing action suitable for pool side cleaning.

order acme handle

item	[in.]	action	material	pack
99100	10	coarse	synthetic	10
99101		medium	tampico	

## MASONRY | KALSOMINE

Use these brushes for stucco, concrete or applying finishes

Kalsomine (also known as whitewash) brushes can be used to clean up during masonry work, to give a rustic texture to jointing in brickwork or as applicators for a variety of substances.

masonry kalsomine

250

253

256

257

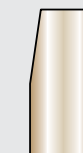

275

For the application of thick industrial coatings such as stucco, tar or paint.

These brushes are also used to scrub concrete and brick finishes. The masonry block brushes need a tapered handle and are used like a deck brush for increased reach.

The brushes with handles can be used as applicators to apply wallpaper paste, whitewash, liquid waterproofing of cement. They can also be used to create a textured finish in wet paint or cement.

item	size [in.]	row	action	material	profile	trade use	pack
250	7 x 1	6	coarse	union	block brush w/taper hole	masonry scrubber masonry, tar applicator	20
253	7 x 1½	5	medium	tampico			
256	6 x 1	3			brush with handle	kalsomine applicator	
257	7 x 1½	3	medium	tampico			
275	6 x 2¼	5					

order tapered handle on 250 & 253

Tampico fibres are a good choice when you need absorbency and releasing properties such as applying industrial coatings.

## WIRE SCRATCH

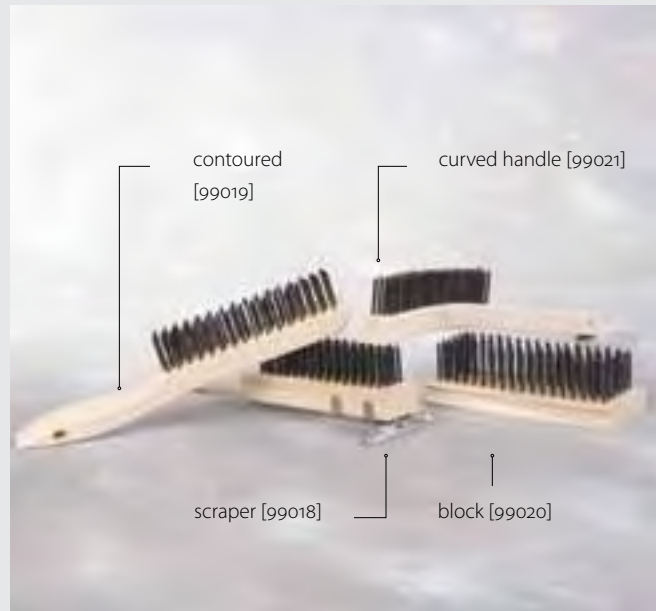

Metal fibres for the coarsest scrubbing

These small brushes are used in a variety of industrial applications such as welding or removing rust and paint from metal or wood.

### WIRE SCRATCH BRUSHES

These brushes are offered in tempered steel for use in dry applications, stainless steel for more humid conditions and soft brass for cleaning polished surfaces such as enamel BBQ finishes.

item	rows	handle	material	pack
99022	4	curved	brass	
99024	3	long	stainless steel	20
99025	4			
99015	3	contoured		
99016	5	scraper		10
99017	4	long		
99018	4	scraper	carbon steel	20
99019	4	contoured		
99020	6	block		
99021	4	curved		
99023	3	long		

## WHISKS

Keep workstations clean and safe

Use to clean work benches. Corn whisks remove dry industrial grit and the synthetic whisks remove dirt where high humidity is present.

### WHISKS

Whisks are useful in many places to sweep dirt from chairs, upholstery, window sills and small spaces found in vehicle cabs. The all-synthetic whisk can be used in food service applications.

item	material	pack
7509	all-synthetic construction	
17521	premium corn w/metal cap	12
17522	corn with plastic cap	

## FLOOR & TILE SCRUBS

When you need to get into corners or grout lines

Nothing works better than these synthetic brushes to remove dirt, grease, oil and mould from surfaces that are damp or wet.

### DUAL LEVEL

This dual-level brush features coarse, crimped polypropylene trim in a 10-inch polymer block. The "V" shape of the block means the bristles get into corners. Use a non-wood handle for food service.

description	item	pack
dual angle brush	5317	6

### SWIVEL SCRUB

Universal locking collar accepts any handle. Aggressive, synthetic, short-trim bristles take the hard work out of scrubbing grime and grease from floors, walls, ledges, and baseboards. The swivel connector keeps the tool positioned correctly even on awkward angles.

description	item	pack
general purpose, coarse	5300	
power scrub, x-coarse	5310	5

### GROUT & CREVICE

Extra-coarse, 7/8-inch trim fibres offer the strength required to power through mould and dirt found on grout. Effective when used with cleaning chemicals.

description	item	pack
grout and crevice brush, x-coarse	5351	24

# UTILITY SCRUBS

The most versatile brushes you can own

Short or long handle, all-natural or synthetic, these brushes have medium to coarse stiffness depending upon fibre fill. Natural fibres work well in high heat applications and the all-synthetic brushes offer good chemical and moisture resistance.

## Natural

The structure of natural fibre is open, meaning it absorbs water readily and performs well where heat may be present. These all-natural materials are also biodegradable.

item	handle [in.]	action	fibre	pack
381	20	medium	tampico	10
383	9			
398	20	coarse	union	
400	9			

## Synthetic

The structure of synthetic fibres is closed, meaning it absorbs very little water. The synthetic polypropylene utility brushes are a wood-free sanitary tool. These brushes can be used in the food service industry.

item	handle [in.]	action	fibre	colour	pack
838	20	medium	polypropylene	blue	10
818	9				
848	20	coarse		white	
828	9				

# HAND SCRUBS

These brushes fit your hand like a glove

Pick the best shaped brush for improved ergonomics and efficient scrubbing.

## POINTED

Union fibre in a 9¼-inch peanut style hand grip is designed for ergonomic comfort when aggressive scrubbing is needed.

## UPHOLSTERY

The soft tampico 6-inch block brush is perfect for scrubbing fabrics such as upholstery, or tamping carpets.

description	item	pack
9¼ in. pointed union fibre	150	20
6 in. handle, nylon fibre	164	

## IRON

The all-synthetic iron shaped scrub with the open handle can be used to scrape off dried-on dirt while the pointed end gets into hard-to-reach corners for either scraping or scrubbing.

## NAIL

A plastic nail brush with a closed handle is a must-have for implementing workplace hygiene programs – gets in between the nail and finger for the cleanest possible hands.

description	item	pack
iron hand brush	101	20
nail and finger brush	409	24

## PARTS BRUSH

Use the thin profile to clean small machine parts. All synthetic construction is solvent and chemical resistant. All tool boxes deserve this brush.

description	item	pack
parts brush	8502	20

## COUNTER BRUSHES

Sweep from side to side at arm's length

Counter brushes are handy in many situations; for general use, our wooden counter brushes clear window sills or workbenches of dust and debris. Synthetic blocks are used where high humidity is present.

### Wood block

In a dry industrial environment, our wooden handle counter brushes can sweep countertops before dust has a chance to become grime.

description	item	pack
blend of horsehair	84	10
synthetic horsehair	85	

### Synthetic block

In a food preparation environment, our polypropylene counter brushes can sweep up flour and crumbs from countertops before washing.

## WASHROOM ACCESSORIES

Scrubbing and cleaning around the toilet bowl

Cleaning toilets may not be the most glamorous job, but having the right tools means you can get in and get out fast, leaving a clean washroom behind you.

BOWL BRUSHES

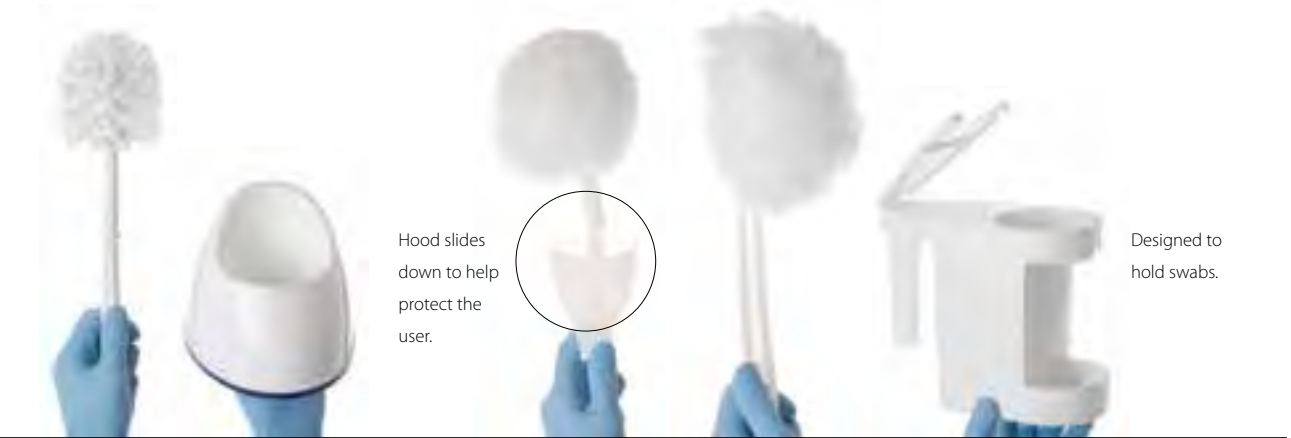

These brushes are best for cleaning urinals or the underside of the toilet rim where it is difficult to clean.

item	description	pack
25	turks head (urinal) , polypropylene	10
824	twisted-in-wire, polypropylene	20
924	twisted-in-wire, natural tampico	20
1150	hydro plunger	12

25 824 924 1150

These brushes are the best solution for cleaning toilet bowls without scratching vitreous china.

BOWL ACCESSORIES

Hood slides down to help protect the user.

Designed to hold swabs.

823 816 908 906 910

The round toilet brush is our most popular medium/coarse fibre scrub. The acid-resistant swabs are safer to use when chemicals are applied because there is no "flicking" action. Both styles of swabs are designed to release liquid quickly to minimize dripping.

item	description	pack
823	round bowl brush	20
816	round bowl brush caddy	10
908	acrylan hooded swab	100
906	acrylan swab	100
910	swab caddy	10

# VEHICLE BRUSHES

From muscle cars to off-road trucks

Dedicated wash brushes ensure your vehicle's dirt and grime are removed while maintaining the manufacturer's original shine. So, go ahead, get dirty. Always use these brushes with a commercial grade foaming soap, flow-through nozzle and a pre-rinse for scratch-free performance.

## PROFESSIONAL BUMPER

A 10-inch wide oval block with protective vinyl bumper is filled with soft, synthetic horsehair fibre. This brush makes an excellent foaming brush for use in car washes.

description	item	pack
horsehair blend	352	10

## PROFESSIONAL OVAL

A nine-inch oval block, filled with plush nylon fibre that is extremely gentle on delicate automotive surfaces. A soft vinyl bumper around the edge of the block also helps protect the paint.

description	item	pack
nylon	355	6

## PROFESSIONAL DUAL ANGLE

The 10-inch, dual-level brush with Nylon bristles makes cleaning all surfaces of a tractor trailer easy – even the roof.

description	item	pack
nylon	5314	6

# VEHICLE BRUSHES

Getting down to scrubbing transportation vehicles

These brushes are designed to scrub with a commercial-grade, spray-on soap. Industrial vehicles that use an acid wash should consider our acid-resistant brushes for better durability.

## DETAIL WASH

These detail brushes have the softest touch possible. The 20-inch handle gives extra reach to clean intricate areas such as grills, bumpers and wheel wells.

description	item	pack
20-in. handle, nylon fibre	387	
9-in. handle, nylon fibre	386	6

## ACID WASH – DETAIL

Cement trucks and mining vehicles are the biggest, most difficult industrial vehicles to clean. AG professional acid brushes are resistant to caustic or alkaline washes and have a medium bristle for enhanced scrubbing action without causing damage to painted surfaces. The 20-inch handle gets into wheel wells and other tight spots.

description	item	pack
20-in. handle, medium scrub	388	6

## ACID WASH – VEHICLE

The 10-inch brush is perfect for cleaning larger areas on industrial vehicles and equipment such as cement chutes. Order handle or flow-through nozzles separately.

description	item	pack
10-in. soft/medium brush	315	10

# WINDOW BRUSHES

Pre-clean window grime with brushes

Our window brushes have the finest, softest fibres available. The synthetic horsehair brushes have fine, crimped fibres to hold more water. Tampico offers good heat resistance and absorbs and releases solution well in an industrial application.

Synthetic brushes clean heavy soil off glass because they flood the surface, suspending grit within the surfactants and water, protecting the window's surface. Natural tampico holds more water. Use for aggressive cleaning on dirty windows.
