WOOL DUSTERS

Nature's original duster

To dislodge dust: flip the Woolly Wonder upside down inside a waste receptacle, and vigorously spin.

Nature sometimes provides its own perfect cleaning solution. The static charge produced by lambswool fibres has a natural affinity for dust. All of our wool products are manufactured with premium selected lambswool skins, featuring rugged polymer handles.

The Woolly Wonder is easy to clean and doesn't normally have to be laundered to remove the dust. To dislodge dust, flip the Woolly Wonder upside down, insert into a waste receptacle, and vigorously spin the handle between your hands. Woolly Wonder dusters work well where high dusting is performed on walls, ceilings and duct work.

WOOLY WONDER™

Lambswool, a renewable natural fibre

The Wooly Wonder is made from a natural wonder fibre that attracts dust like a magnet.

FIXED HANDLE

For dusting within arm's reach the fixed-handle lambswool dusters are ideal. The dusting head is flexible for reaching around corners.

description	flexible	item	size [in.]	pack
big pro	-	312	28	60
econo pro	-	425	26	72
flex	✓	314	28	10

EXTENDABLE

For jobs where a little extra reach is required, we offer four extendable-handle Wooly Wonder dusters in varying lengths. The flexible head and handle get into those corners with ease.

description	flexible	extendable	item	size [in.]	pack
super flex	✓	✓	310	32 - 60	10
hi-rise	✓	✓	311	30 - 44	10
econo hi-rise	-	✓	426	28 - 42	72

HIGH DUSTERS

Clean way up high

These high dusters are made to be paired with an extension handle to reach high or awkward spots.

WALL & CEILING

The extension pole (order separately) attaches in the middle of the head, making this the perfect tool for dusting ceilings and walls.

description	item	size [in.]	pack
duster head	414	-	12
ext. pole	36778	42 - 78	20

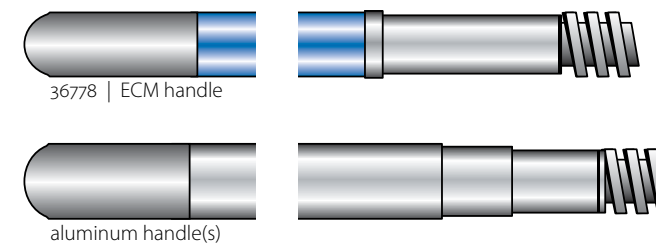

CORNER BOY

The flexible frame of the Corner Boy can be shaped to dust the tops of pipes, ceiling fans or high shelves. Use this with an acme-threaded handle or extension pole to reach high places.

description	item	pack
complete	309	10
refill	313	20
42-78-in. ext. pole	36778	20

TELESCOPIC HANDLES

The epoxy-coated metal (ECM) extension handle is the perfect blend of economy and quality. It's the quintessential accessory to any dusting program. The anodized aluminum multi-use handles resist oxidation and have a ¼ turn twist-and-lock for ease of use.

epoxy-coated metal	size [in.]				pack
36778	42 - 78				20
aluminum	8 ft.	12 ft.	18 ft.	24 ft.	pack
3-section twist lock	36708	36712	36718	-	6
4-section twist lock	-	-	-	36724	

MISCELLANEOUS DUSTERS

FIND DUST BUNNIES WHERE THEY HIDE

Feather dusters are perfect for getting in between delicate objects that you don't want to move in order to dust. The Microblade™ (microfibre) duster can be shaped to get in and around objects.

FEATHER DUSTERS

Ostrich feathers are durable, flexible and fluffy. The traditional, natural ostrich feather duster with a 9.5-inch, lacquered wooden handle safely dusts delicate or intricate surfaces such as ornamental objects, light fixtures or Venetian blinds.

item	size [in.]	pack
297	22	20

MICROBLADE™ DUSTER

Designed for cleaning high or low, hard-to-reach places. The low profile frame is flexible and can be shaped to fit confined spaces. Duster is suitable for dry or damp dusting. The microfibre sleeve can be laundered up to 500 times using an appropriate laundering method.

description	item	size [cm]	pack
frame	21801	55	5
microfibre	21802		10
handle	36781	89-163	5

Warning: do not use metal extension poles around live electrical equipment. Image shown for demonstration only.

HAND DUSTER

General purpose

Sometimes cleaning horizontal surfaces such as furniture or table tops is best accomplished using your hands with a dusting cloth. When folded, these cloths fit your hand.

VELVA-SHEEN CLOTHS

These flannelette cloths are treated with our Velva-Sheen dust treatment, that attracts and captures dust on any type of surface, from glass to school chalkboards. Sold as individual cloths or in rolls.

item	size [in.]	pack
118	18 x 18	30
124	18 x 24	20
126	18 x 24	1 (50 cloths)
105	5 yard roll	10
125	25 yard roll	3

TERRY CLOTH

Cotton terry cloth can be used wet as a bar wipe or slightly damp as a duster.

item	size [in.]	pack
120	15 x 18	120

BIOMOP™

Biomop dusting sheets are disposable/biodegradable dry mop sheets that can be used as a wipe or in a retail floor sweeper frame. This duster was developed to assist you with green content programs.

item	description	pack
77132	16 cloths, 20 x 30 cm	12

More information on the Biomop can be found in the Purasolutions™ section.
